

### **Eco Performance Award 2016: apply online now!**

*Ratingen, 24.08.2015.* A new application and selection process has been introduced for Europe's leading accolade for sustainability in the transport and logistics industry, the Eco Performance Award. Interested companies can now register quickly and easily online and submit a brief application up to 31 January 2016. Your application should first of all outline your sustainability concept and, without going into too much detail, seek to convince the expert jury of its potential. The ten most promising applicants will be named and may then submit a fully detailed application. In a final selection round, three to five applicants will be invited to present their concepts in person to the jury. The winners will be honoured at an award ceremony on 22.9.2016 in Hanover.

The expert jury will award prizes to companies from the transport and logistics industry that have best balanced the aspects of economic, ecological and social sustainability. The jury takes into account innovative measures as well as robust, practical overall concepts. In addition to the Eco Performance quality seal, the winners also receive a cash prize of EUR 10,000. The award, an independent quality seal initiated by DKV Euro Service, is endowed jointly with the Chair of Logistics Management of the University of St.Gallen and Premium Partners Knorr-Bremse and the PTV Group.

## **DKV Euro Service**

The DKV Euro Service has been one of the leading service providers for the logistics and haulage sector for around 80 years. From cashless service on route at 55,300 brand-independent acceptance points to toll invoicing and VAT refund service, the DKV offers a range of cost optimisation services and services for the management of fleets on Europe's roads. The DKV is part of the DKV MOBILITY SERVICES Group with 700 employees. In 2014 it generated a turnover of 5.7 billion euros and is represented in 42 countries. Currently 2.5 million DKV cards and on-board units are being used by more than 120,000 customers. In 2015, for the eleventh year running, the DKV CARD received an award for best brand in the category fuel and service cards.
